

December 2022

Dear Members,

If you missed our meeting last month, you missed an interesting presentation about the early photographs taken by Charles Warren Eaton which became the basis for many of his paintings. Rick Rockwell put a lot of work into digitizing and organizing hundreds of the original negatives. Rick has published them on a website:

www.CharlesWarrenEaton.org

I found the computer-generated colorized versions of the photos especially interesting, as well as some of the enlargements of details from some of the photos.

I hope you can join us for our December Holiday Party on December 19th. Please remember to RSVP and send your check for \$35 to us.
